

PRODUCT GUIDE

The following compilation of products and manufacturers resulted from a survey done by Dr. Dara Rosenberg and Ms. Carolyn Fetter some years ago for the ADPD. This year, with the help of responses from members of SCDA, Ms. Carolyn Fetter updated and expanded the list. The purpose of the guide is to provide practitioners with a useful resource for those special patients with functional limitations, who may need

unconventional dental aides to maintain their oral health. By no means does this product guide attempt to list all the dental products which our membership has found useful in their practices. We encourage members to send us suggestions or updates regarding dental products of specific benefit in your practice. We apologize for any inaccuracy. Please contact the National Office at 312-527-6764 for any necessary corrections.
